**COMPOSITION OF CAPITAL AND LEVERAGE RATIO** 

As at 30th June 2023

#### **Executive summary**

All Bahraini conventional bank licensees are required to report the composition of capital in addition to the main features of the regulatory instruments. Furthermore, banks must provide a full reconciliation report of all regulatory capital elements back to the published consolidated financial statements.

The purpose of the disclosure is to enable market participants to compare the capital adequacy of banks across jurisdictions and to improve consistency and ease of use of disclosures relating to the composition of regulatory capital.

- 1- **Reconciliation Requirements:** Established to ensure that a full reconciliation of all regulatory capital elements back to the published consolidated financial statements is provided in a consistent manner.
- 2- Main Features of Regulatory Capital Instruments: Provides a description of the main features of regulatory capital instruments issued. Established to ensure that banks provide a description of the main features of the regulatory capital instruments issued.
- 3- Capital Components: Discloses the components of capital, taking into consideration the transitional arrangements. The disclosure provides the full terms and conditions of regulatory capital instruments and reports the calculation of any ratios involving components of regulatory capital, to enable the Prudential Information Returns (PIR) to be reconciled with the consolidated financial statements.

The format and the level of disclosure in the attached report is dictated by the Central Bank of Bahrain (CBB) and reflects a proforma issued by the Central Bank.
