REPORT ON REVIEW OF CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS TO THE BOARD OF DIRECTORS OF GULF INTERNATIONAL BANK B.S.C.

Introduction

We have reviewed the accompanying condensed interim consolidated financial statements of Gulf International Bank B.S.C. (the "Bank") and its subsidiaries (together the "Group") as at 30 September 2023, comprising the interim consolidated statement of financial position as at 30 September 2023 and the related interim consolidated statements of income and comprehensive income, for the three month and nine month periods then ended, the interim consolidated statement of changes in equity and cash flows for the nine-month period ended and explanatory notes. The Bank's Board of Directors is responsible for the preparation and presentation of these condensed interim consolidated financial statements in accordance with International Accounting Standard 34 *Interim Financial Reporting* (IAS 34). Our responsibility is to express a conclusion on these condensed interim consolidated financial statements based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing. Consequently, it does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34.

1 Incorporation and registration

The parent company, Gulf International Bank B.S.C. ("the Bank"), is a Bahraini Shareholding Company incorporated in the Kingdom of Bahrain by Amiri Decree Law No. 30 dated 24th November 1975 and is registered as a conventional wholesale bank and a conventional retail bank with the Central Bank of Bahrain. The registered office of the Bank is located at Al-Dowali Building, 3 Palace Avenue, Manama, Kingdom of Bahrain.

The Bank and its subsidiaries (together "the Group") are principally engaged in the provision of wholesale commercial, asset management, investment banking and retail consumer banking services. The Group operates through subsidiaries, branch offices and representative offices located in six countries worldwide. The total number of staff as at 30th September 2023 was 1,366 (31st December 2022: 1,264).

2 Basis of preparation

2.1 Basis of preparation

The condensed interim consolidated financial statements of the Group are prepared in accordance with International Accounting Standard IAS 34, Interim Financial Reporting ("IAS 34") and in conformity with the Bahrain Commercial Companies Law and the Central Bank of Bahrain and Financial Institutions Law.

The condensed interim consolidated financial statements of the Group do not contain all information and disclosures required for the annual audited consolidated financial statements, and should be read in conjunction with the Group's annual audited consolidated financial statements for the year ended 31st December 2022. Further, results for the interim periods are not necessarily indicative of the results that may be expected for the financial year ending 31st December 2023.

2.2 Basis of consolidation

The condensed interim consolidated financial statements include the accounts of Gulf International Bank B.S.C. and its subsidiaries. Subsidiaries are companies and other entities, including special purpose entities, which the Bank controls. The Bank controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The subsidiary's accounts are derecognised from the consolidated financial statements from the point when the control ceases. All intercompany balances and transactions, including unrealised gains and losses on transactions between Group companies, have been eliminated.

2.3 Accounting policies

The accounting policies have been consistently applied by the Group and are consistent with those of the previous year, as set out in the consolidated financial statements for the year ended 31st December 2022, except for the adoption of applicable new and amended standards and interpretations with effect from 1st January 2023 as referred to below:

- IFRS 17 Insurance Contracts
- Definition of Accounting Estimates Amendments to IAS 8
- Disclosure of Accounting Policies Amendments to IAS 1 and IFRS Practice Statement 2
- Deferred Tax related to Assets and Liabilities arising from a Single Transaction Amendments to IAS 12

The above new and amended standards and interpretations had no impact on the condensed interim consolidated financial statements of the Group.

9.2 Provisions for expected credit losses

The stage 1 and stage 2 provisions reflect the probability-weighted estimate of expected credit losses under IFRS 9. The provisions comprise both quantitative and qualitative information and analysis, based on the Group's historical experience and taking into consideration both internal and external indicators and includes forward-looking information.

The Group calculates PIT PD estimates under three scenarios, a base case, negative case and positive case. A probability weighted ECL is then calculated by assigning probabilities, based on current market conditions, to each scenario. The probabilities assigned to the base case, negative case and positive case scenarios are 50:45:05, respectively (31st December 2022: 50:35:15).

Stage 3 provisions reflect credit-impaired provisions based on the difference between the net carrying amount and the recoverable amount of the loan.

The movements in the provisions for expected credit losses during the periods ended 30th September 2023 and 30th September 2022 are as follows:

13 Fair value of financial instruments

The Group's financial instruments are accounted for under the historical cost method with the exception of trading securities, equity investment securities and derivative financial instruments, which are accounted for at fair value. The fair value represents the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. Differences therefore can arise between book values under the historical cost method and fair value estimates. Underlying the definition of fair value is the presumption that the Group is a going concern without any intention or requirement to curtail materially the scale of its operation or to undertake a transaction on adverse terms. Generally accepted methods of determining fair value include reference to quoted prices (level 1 measurement) or to the pricing prevailing for similar financial instruments (level 2 measurement) and the use of unobservable inputs in estimation techniques such as discounted cash flow analysis (level 3 measurement).

The valuation methodologies applied are outlined below.

13.1 Trading securities

The fair values of trading securities are based on quoted prices (level 1) or valuation techniques (level 2 or 3).

13.2 Investment securities

The fair values of equity investment securities are based on quoted prices (level 1) or valuation techniques (level 2 or 3). The fair values of debt investment securities are based on quoted market prices (level 1) and approximate the carrying values.

13.3 Loans and advances

The fair values (level 2) of loans on a floating interest rate basis are principally estimated at book value. The fair values (level 3) of impaired loans are estimated at the recoverable amount, measured as the present value of expected future cash flows discounted based on the interest rate at the inception of the loan. The fair values of fixed rate loans are estimated on a discounted cash flow basis utilising discount rates equal to prevailing market rates of interest in the respective currencies for loans of similar residual maturity and credit quality. The fair values (level 2) approximate the carrying values.

For the nine months ended 30th September 2023

13 <u>Fair value of financial instruments</u> (continued)

13.4 Term financing

The fair value of term financing is based on observable market data, including quoted market prices for debt instruments issued by similarly rated financial institutions and with similar maturities, or estimated on a discounted cash flow basis utilising currently prevailing spreads for borrowings with similar maturities. The fair values (level 2) of senior term financing at 30th September 2023 approximate the carrying values.

13.5 Other on-balance sheet items

The fair values of foreign exchange and derivative financial instruments are based on market prices, discounted cash flow techniques or option pricing models as appropriate. The fair values of all other on-balance sheet assets and liabilities approximate their respective book values due to their short-term nature.

13.6 Credit-related contingent items

There was no material fair value excess or shortfall in respect of credit-related off-balance sheet financial instruments, which include commitments to extend credit, standby letters of credit and guarantees, as the related future income streams reflected contractual fees and commissions actually charged at the balance sheet date for agreements of similar credit standing and maturity. Impairment provisions made in respect of individual transactions where a potential for loss has been identified are included in provisions for the impairment of other liabilities.

13.7 Valuation basis

The valuation basis for financial assets and financial liabilities carried at fair value was as follows:

		Valuation

Quoted prices include prices obtained from lead managers, brokers and dealers. Investment securities valued based on other valuation techniques comprise private equity investments that have been valued based on price / earnings and price / book ratios for similar entities, discounted cash flow techniques or other valuation methodologies.

No transfers out of the level 3 measurement classification occurred during the period ended 30th September 2023. Similarly, no transfers between level 1 and level 2 measurement classifications were made during the period ended 30th September 2023.

Sensitivity of the movement in the fair value of financial instruments in the level 3 category is assessed as not significant to other comprehensive income or total equity.

14 <u>Segmental information</u>

For financial reporting purposes, the Group is organised into four main operating segments:

- Wholesale banking: the provision of wholesale commercial financing and other credit facilities for corporate and institutional customers.
- Treasury: the provision of a broad range of treasury and capital market products and services to corporate and financial institution clients, money market, proprietary investment and trading activities and the management of the Group's balance sheet, including funding.
- Asset management and investment banking: the provision of asset and fund management services, and of financial advisory services relating to structured financing, privatisations, initial public offerings, and mergers and acquisitions.
- Head office and support units: income arising on the investment of the Group's net free capital funds and expenses incurred by support units, including the investment in the retail banking strategy prior to the launch of all planned retail banking products and services.

The results reported for the business segments are based on the Group's internal financial reporting systems, which report interest revenue and interest expense on a net basis. The accounting policies of the segments are the same as those applied in the preparation of these condensed interim consolidated financial statements. Transactions between business segments are conducted on normal commercial terms and conditions. Transfer pricing between the business units is based on the market cost of funds.

Segment results, assets and liabilities comprise items directly attributable to the business segments. Liabilities reported for head office and support units comprise senior and subordinated term finance facilities and related accrued interest, the cost of which is recharged to the relevant operating business segments.

16 Liquidity and capital adequacy ratios

The Group is also required to comply with Basel 3 liquidity ratio requirements as stipulated by its lead regulator, the Central Bank of Bahrain (CBB), which became effective during 2019. These requirements relate to maintaining a minimum 100% liquidity coverage ratio (LCR) and net stable funding ratio (NSFR). The LCR is calculated as a ratio of the stock of High Quality Liquid Assets (HQLA) to the net outflows over the next 30 calendar days. The NSFR is calculated as a ratio of 'available stable funding' to 'required stable funding'. At 30th September 2023, the Group's LCR and NSFR were 133.9% and 152.8% respectively, (31st December 2022: 299.3% and 161.5% respectively). The Group's total capital adequacy as of 30th September 2023 is 16.3% (31st December 2022:17.3%).

17 <u>Share capital reduction</u>

On 30th March 2023, the Group held an extra-ordinary general meeting (EGM) during which it was resolved to adjust the Group's capital against its accumulated losses as of 31st December 2022 after having received regulatory approvals. The Shareholders have approved the set-off of accumulated retained losses of US\$729.0 million against capital and reserves. In doing so, the Bank has decreased its capital by US\$500.0 million through a 20% reduction in shares as well as using its voluntary reserves and share premium in full, and the reduction of legal reserves by US\$42.4 million. After the restructuring, total shareholders' equity remains unchanged. The Ministry of Industry and Commerce (MOIC) have published the announcement relating to capital reduction in the Official Gazette as part of their final approval process and was reflected in the Bank's Commercial Registration (CR) issued on 15th May 2023.
